To write in the True Runes, as to speak the Old Speech, is to guarantee the truth of what register but dark-toned, and held to an even quietness, contained, restrained. She perched on a either place the way our parents or ancestors did. Enchantment alters with age, and with the age. "Come" she said, "before you fall asleep there," and he followed her obediently to Berry's room, which wasn't much more than a cupboard built onto the corner of the house. Her room was behind the chimney. Berry would come in, drunk, in a while, and she'd put down the pallet in the chimney corner for him. Let the traveler have a good bed for a night. Maybe he'd leave a copper or two with her when he went on. There was a terrible shortage of coppers in her household these days. He came back in the evening, lamer than ever, for of course San had walked him clear out into the Long Fields where most of his beeves were. Nobody had horses but Alder, and they were for his cowboys. She gave her guest a basin of hot water and a clean towel for his poor feet, and then thought to ask him if he might want a bath, which he did. They heated the water and filled the old tub, and she went into her room while he had his bath on the hearth. When she came out it was all cleared away and wiped up, the towels hung before the fire. She'd never known a man to look after things like that, and who would have expected it of a rich man? Wouldn't he have servants, where he came from? But he was no more trouble than the cat. He washed his own clothes, even his bedsheet, had it done and hung out one sunny day before she knew what he was doing. "You needn't do that, sir, I'll do your things with mine," she said. "Some old women down by the docks. An old sorcerer. His sister." that would have kept a far more experienced wizard captive. There were men of great skill and the eagle came, circling and screaming over the valley, the hillside, the willows by the stream. fragments into a curve, then closed it into a circle. "Yes," he said, studying his eggshells. "I'm sorry too," he said, trying to speak carelessly, lightly. a young man, thin, not as tall as she had thought. It was a fine face, but there was something enemy, he had one such group investigated. They turned out to be a lot of old women, midwives, down the Inmost Sea to Roke. the winding stairs, out of the tower, past the barracks, away from the mines. They walked through brass the wide, vaned wings opened and the dragon sprang up into the air, circled Roke Knoll once, since the North Reach is isolated and thinly populated, and the Kargad people have held themselves. After a while Ayo said, "She went down to Firn with some of the young folk. To buy fleece from the island of Enlad. Tern." "If I did, it would be up to you all to approve or disapprove," said he. When (in the year 440, by Hardic count) Erreth-Akbe came to make peace between the Archipelago and seven or eight years before. Sava had been one of the women of the Hand on the isle of Ark. Though was silent, and Otter watched him with staring intensity, still trying to understand. similar to my sweater but with a full, inflated collar sat sideways at a table, a glass in his hand. We cherish the old stories for their changelessness. Arthur dreams eternally in Avalon. Bilbo can. "We could find no trace of him. No doubt he changed himself to a bird or a fish when he left Roke, until he came to some other island. And a wizard can hide himself from all finding spells. We sent out inquiries, in the ways we have of doing so, but nothing and nobody replied. So we set off looking for him, the Summoner to the eastern isles and I to the west. For when I thought about this man, I had begun to see in my mind's eye a great mountain, a broken cone, with a long, green land beneath it reaching to the south. I remembered my geography lessons when I was a boy at Roke, and the lay of the land on Semel, and the mountain whose name is Andanden. So I came to the High Marsh. I think I came the right way." "To Roke?" She stared. "To Roke, Di? Then you really do have the gift --you could be a sorcerer?" the palace of the kings. "A great enemy has gathered against you, south in the Inmost Sea, and we. The trouble rose up in Irith's mind as it had not done since he came to the High Marsh. He struggled against it. A man of power had come to heal the cattle, another man of power. But a sorcerer, Alder had said. Not a wizard, not a mage. Only a curer, a cattle healer. I do not need to fear him. I do not need to fear his power. I do not need his power. I must see him, to be sure, to be certain. If he does what I do here there is no harm. We can work together. If I do what he does here. If he uses only sorcery and means no harm. As I do. To find her on Hemlock's side was a blow. Mostly the pupil was supposed to be with the Master, or studying the lists of names in the room where the lorebooks and wordbooks were, or asleep. Hemlock was a stickler for early abed and early afoot. But now and then Diamond had an hour or two free. He always went down to the docks and sat on a pierside or a waterstair and thought about Darkrose. As soon as he was out of the house and away from Master Hemlock, he began to think about Darkrose, and went on thinking about her and very little else. It surprised him a little. He thought he ought to be homesick, to think about his mother. He did think about his mother quite often, and often was homesick, lying on

his cot in his bare and narrow little room after a scanty supper of cold pea-porridge -- for this wizard, at least, did not live in such luxury as Golden had imagined. Diamond never thought about Darkrose, nights. He thought of his mother, or of sunny rooms and hot food, or a tune would come into his head and he would practice it mentally on the harp in his mind, and so drift off to sleep. Darkrose would come to his mind only when he was down at the docks, staring out at the water of the harbor, the piers, the fishing boats, only when he was outdoors and away from Hemlock and his house..In the evening he lay down on the ground and talked to it. "You should have told me, I could have.completely. A small mouth in an uncertain smile, the lips painted, the nostrils also red inside -- I.What they had they shared. In that it was indeed Morred's Isle. Nobody on Roke starved or went.Ivory went, limping only very slightly, to an old mounting-block nearby and sat down on it. He stretched his leg, nursing the torn place, and looked up at the woman. "It would take a long time to tell you what Roke is like," he said. "But it would be my pleasure."..gossip..Early did not punish Hound for his failure, but he remembered it. He was not used to failures and did not like them. He did not like what Hound told him about this boy, Otter, and he remembered it..Tern left late that year on his journey. He had with him a boy of fifteen, Mote, a promising weatherworker who needed training at sea, and Sava, a woman of sixty who had come to Roke with him seven or eight years before. Sava had been one of the women of the Hand on the isle of Ark. Though she had no wizardly gifts at all, she knew so well how to get a group of people to trust one another and work together that she was honored as a wise woman on Ark, and now on Roke. She had asked Tern to take her to see her family, mother and sister and two sons; he would leave Mote with her and bring them back to Roke when he returned. So they set off northeast across the Inmost Sea in the summer weather, and Tern told Mote to put a bit of magewind into their sail, so that they would be sure to reach Ark before the Long Dance..the earth."..the Kargish forces, who had landed in "a thousand ships" on Waymarsh and were swarming across the.."There is no king in Earthsea," the young man said, stern and righteous, "In my master's service,..was sticky stuff, and he disliked stooping to clean his feet before going into the house. But I wouldn't ask..the island, a sea no boat could venture out in..After Maharion's death in 452, several claimants contested the throne; none prevailed. Within a few years their struggles had destroyed all central governance. The Archipelago became a battleground of hereditary feudal princes, governments of small islands and city-states, and piratic warlords, all trying to increase their wealth and extend or defend their borders. Trade and ship traffic dwindled under piracy, cities and towns withdrew inside defensive walls; arts, fisheries, and agriculture suffered from constant raids and wars; slavery, which had not existed under the Kings, became common. Magic was the primary weapon in forays and battles. Wizards hired themselves out to warlords or sought power for themselves. Through the irresponsibility of these wizards and the perversion of their power, magic itself came into disrepute..Nothing, to his mind, could be more despicable than such a betrayal of their art. All at once he looked straight at Otter, who froze in terror thinking the wizard had caught him watching his mind. Gelluk stared at him a while with that curious half-keen, half-unseeing gaze, smiling. "Little Medra!" he said, as if just discovering he was there. He patted Otter's shoulder. "I know you have the gift of finding what's hidden. Quite a great gift, were it suitably trained. Have no fear, my son. I know why you led my servants only to the little lode, playing and delaying. But now that I've come, you serve me, and have nothing to be afraid of. And there's no use trying to conceal anything from me, is there? The wise child loves his father and obeys him, and the father rewards him as he deserves." He leaned very close, as he liked to do, and said gently, confidentially, "I'm sure you can find the great lode."..get here?"..The winter passed by, and the cold early spring, and with the warm late spring came a letter from his mother, brought by a carter. Diamond read it and took it to Master Hemlock, saying, "My mother wonders if I might spend a month at home this summer."..He stopped before an oak door. Instead of knocking he sketched a little sign or rune on it with the top of his staff, a light staff of some greyish wood.
